RUGGED PORTABLE WI-FI

We have developed a range of portable Wi-Fi systems enabling the user to access the internet securely wherever there is a mobile phone signal. The use of lithium iron phosphate battery technology means that the units are lightweight. The battery and router are mounted within rugged plastic cases.

BENEFITS

- Impact resistant polypropylene case with shoulder strap.
- Range caters for up to 150 users.
- Router throughput up to 400Mbps.
- Lightweight.
- Integrated split charger with external 10A fuse.
- Secure Wi-Fi for transactions.
- Option of corporate branding.

APPLICATIONS

- Outdoor events
- Exhibitions and shows
- Site developments
- Remote access areas
