

VARLEY RED TOP™

THE ORIGINAL
RACING BATTERIES

Racing Battery Range

- Exceptionally high cranking power
- High shock and vibration resistance
- Female terminals on all batteries
- Maintenance free, sealed construction
- Lightweight and compact
- No topping up
- Can be installed upright or on a side
- Minimal risk of electrolyte leakage if the outer case is damaged.
- Over 50 years motorsport heritage
- Expert technical support

The Varley Red Top Battery Range offers very high performance for race and rally applications. Designed and engineered to a high specification for motorsport use, the Varley Red Top can withstand even the harshest of conditions. With high shock and vibration resistance, the Varley Red Top batteries have proven to be an excellent choice for race and rally cars.

Furthermore, the inclusion of female terminals across the range avoids the problem of broken terminals often encountered with male (stud) terminals. DMS technologies is a totally independent, ISO9001 accredited manufacturer and supplier with strong technical expertise. We are therefore well placed to ensure that the Varley Red Top battery range is the best available for motorsport, with elements sourced from the best suppliers around the world. Our batteries are supplied via a network of selected, specialist motorsport distributors.
